

What is claimed is:

1. A textile article comprising: a two-sided Jacquard woven textile with a graphic impression on said textile.
2. The article of claim 1, wherein said textile has selvage edge portions and hem edge portions surrounding said woven portion.
3. The article of claim 2, wherein said textile has a border within said selvage, and a central area, said border surrounds at least a substantial portion of said central area.
4. The article of claim 3, wherein said border has a first color, and a central area within said border, said central area having a second color.
5. The article of claim 4, wherein said first color is a dark color border and said second color is a light color.
6. The article of claim 3, wherein said border is selected from the class of rectangular shape, circular shape, oval shape, square shape, and irregular shape.
7. The article of claim 3, wherein said border is solid or a pattern.
8. The article of claim 7, wherein said pattern is selected from the class consisting of stripes, dots, names, silhouettes of sport players, animal shapes, corporate logos, or university mascots.

9. The article of claim 1, wherein said textile has fiber loops and said loops are sheared and bloomed.
10. The article of claim 3, wherein said area is selected from the class of rectangular shape, circular shape, oval shape, square shape, and irregular shape.
11. The article of claim 3, wherein said impression is in said central area.
12. The article of claim 3, wherein said textile has on its other side a light color border and a dark color central area within said border.
13. The article of claim 3, wherein said graphic impression is in said central area and is screened printed, imaged dyed, digital imaged, or heat transferred.
14. The article of claim 1, wherein said textile is selected from the class of towels, robes, bath mats, aprons, baby bibs and hot-plate mittens.
15. The article of claim 14, wherein said towels are selected from the class of a bath towel, beach towel, kitchen towel, or a sport towel.
16. The method of making a printed textile article comprising: providing a two-sided Jacquard woven fibers textile, and transferring a graphic impression on said textile.
17. The method of claim 16, wherein said transferring is by screen printing, image dyeing, digital imaging, or heat transferring.
